On motion of Mr. Johnson of the Senate—

The following message in writing was received from His Excellency the Governor, by the Secretary of State, which was read—

*Fellow citizens of the Senate,
and House of Representatives,*

Although various causes have operated during the past year to involve a portion of our citizens in pecuniary embarrassments, to a greater or less extent, yet our prospects are already brightening, and we may now calculate with confidence upon the speedy return of abundant prosperity.

Among the causes which have contributed to produce embarrassment has been the excessive importation of foreign merchandise purchased upon credit. For the payment of debts so contracted, the exportation of specie became necessary. A drain of specie necessarily compelled the banks to curtail their loans, and such curtailment is always productive of more or less embarrassment. The securities given by the states, for debts contracted by them in the prosecution of their works of internal improve-

ment, obtaining for a time unlimited credit with foreign capitalists, passed, to the amount of between one and two hundred million of dollars into foreign hands, and foreign merchandise was either directly or indirectly received in exchange for most of them. The ready reception of these securities abroad, afforded a facility of payment for foreign goods, which stimulated strongly to the excessive importation of them. Nor did the impulse thus given, cease to operate when the facilities thus afforded were exhausted, but drove us on to a ruinous extent, beyond even the means apparently so inexhaustible. The influx of foreign goods in this way produced, could not fail of effecting unfavorably the business of our manufacturers. Our imports ought never materially to exceed the value of our exports in foreign markets, for nations as well as individuals, when they buy much and sell little are sure of involving themselves in embarrassment.

The course of business pursued by several of the banks in this country, has had its effect in producing our late embarrassments.— Those banks abandoning their appropriate sphere of business, plunged into various speculations, and became dealers in cotton and other commodities, on a scale so extensive, that instead of being able to loan money, it became necessary for them not only to curtail their loans already made, but to become themselves applicants for extensive loans. The bank of the United States, even resorted to the expedient of issuing and selling its own post notes (notes redeemable at a future day) for the purpose of raising funds to sustain itself in its speculations; and such were the embarrassments into which that bank plunged itself, by its extraordinary course of dealing, that all the means it possessed and had the power to raise, could not save it from the necessity of suspending specie payments. Suspension by that powerful institution, drew after it into the same vortex nearly half the banks in the country. Affected by the operation of these powerful causes, it is not much to be wondered at, that we have been subject to embarrassments; the wonder is rather, that we have passed the ordeal so little harmed. Permit me to congratulate you upon the indications of returning prosperity, as well as upon the present prospect of a fruitful season; in relation to both, may our hopes be fully realized.

By a law of this State passed Jan. 13, 1837, bank bills of the smaller denominations, were prohibited from circulation, after certain times therein specified; but before this law went into operation, the banks suspended specie payments, in consequence of which it became impracticable to carry its provisions into immedi-

ate effect. The Legislature by an act passed July, 4, 1838, suspended the operation of this law until July 1, 1840. I have never doubted the wisdom of suppressing the circulation of small bills, provided such suppression can be made general, and extend to all the States. It is in my belief, the only way in which we can permanently increase our specie circulation. It is very natural that persons owning bank stock, should be opposed to such a measure, as a matter of interest, because the profits accruing from such stock, depend mainly upon the amount of bills which the banks are able to keep in circulation, and if the whole circulating medium of the country be limited by the demand for it, or otherwise, to a given amount, the portion of it which consists of paper, must diminish in the exact ratio, in which the specie portion increases. It is unquestionably desirable, that our circulating medium should be made to include a much larger proportion of specie than now belongs to it. It is desirable, not only as respects the interest which the people universally have, in securing a sound and stable currency, but also as it respects the safety of the banks, and their ability at all times to redeem their circulation with specie. If we expel small bills from circulation, we thereby create a demand for specie to supply their place, and specie like all other commodities will always be attracted most strongly to the point, at which there is the greatest demand for it.— This accords with universal experience. Yet surrounded as we are by States, authorizing the emission and circulation of small bills, and connected as we are with such States in trade, it would probably be difficult at present, to carry the provisions of the act in question into effect. I would therefore suggest the expediency of a further postponement of the law for a limited period, believing that the prohibitions embraced in it, will, at no distant day, be more favourably regarded by the people of the neighboring states.

Our Banks, at present, sustain themselves in their operations, principally by collecting bills of other banks, and depositing them in Boston for the redemption of their own notes. They do not expect to redeem their bills at their own counter to any considerable extent, and they therefore make but slight provision for that purpose. This mode of transacting business has nearly drained the specie from the vaults of the banks, and although it has the advantage of keeping the bills of solvent country banks at par in Boston, and lays some restriction on the amount put in circulation; yet redemption in specie at their own counters, would render necessary the possession of specie funds adequate to that purpose,

and would create a demand for specie, which would no doubt add materially to the specie basis of our circulation.

I would suggest the expediency of making it the duty of the Bank Commissioners, within certain limited periods, to examine into the affairs of the banks, without being called upon by the Governor for that purpose. A provision by law for that object, may secure the public against losses, by the detection of unsoundness in the banks at an early period, and before such unsoundness becomes of so serious a character, as to render the banks deeply insolvent.

Happily for us we have accumulated no State debt, and unlike many of our sister States, we are not subject to burthensome taxation to pay the interest on loans. However desirable may be the public improvements, made in many of the States, it will be found much the wisest policy to leave such improvements to be effected by the enterprise of individuals or associations of individuals; such undertakings, are always prosecuted with greater economy as well as effect, by individuals than by States; beside there is obvious injustice in subjecting the people of the whole State to equal expense for objects, the benefits of which, they must share at best unequally. Our ordinary expenditure for the support of the State Government is about \$45,000 annually, an amount so moderate as to afford no reasonable ground of complaint.

The Constitution of this State requires that "in order that assessments may be made with equality, there shall be a valuation of the estates within this State, taken anew once in every five years at least, and as much oftener as the General Court shall order." Under this provision of the Constitution, it has been customary on the return of every fourth year, to hold an adjourned Session in November, not for the purpose alone of making a new proportion Act, but to supply any vacancy, that might occur in the board of Electors of President and Vice President of the United States. By reference to an Act in addition to an Act, directing the mode of choosing and appointing the Electors aforesaid, passed January 7, 1837, provision will be found to have been there made, for supplying any vacancy that may exist in the Board of Electors, at the time of their meeting, which will preclude the necessity of an adjourned session this year; this provision may save considerable expense to the State, for I think all will agree that our June sessions of ordinary length, afford ample time for all the legislation that the public good may require. Perhaps excess of legislation is one of the growing evils to which we are subject.

Laws of a public nature, to which constructions have been given by Judicial decisions, should not be altered without weighty reasons. Nothing tends so much to increase litigation, and render the law uncertain, as frequent alterations of the statutes. I should therefore recommend but few alterations in our public laws. Our criminal code is humane, and at the same time sufficiently severe. It is more by the certainty, than the severity of punishment, that crimes are prevented; and such are the vigilance and ability with which our criminal laws are now enforced, that few offenders escape deserved punishment.

Our special legislation has much increased within a few years. There are no doubt cases, in which it is expedient to grant charters of incorporation; but acts of incorporation are often asked for, with a sole view to avoid personal responsibility, to enable individuals to transact business under their corporate name, with an exemption from all responsibility, beyond their mere interest in the corporate property. Applications to the Legislature for such favors, ought not to be encouraged. Business transactions involving unlimited personal responsibility, as in the case of individual and partnership affairs, are likely to be conducted in a more prudent and less hazardous manner, than transactions in relation to which, personal responsibility is limited or exonerated. In all acts of incorporation, which the Legislature may deem it expedient to grant, the interests of the public, as well as the rights of individuals, should be guarded with great care. The number and power of corporations in this country, have been extended to an alarming degree, and it may require the utmost vigilance and efforts of our people, as well as their Legislatures, to retain the government of the country in opposition to so many and so powerful combinations.

After having given seasonable notice, the Directors of the State Prison met in Sept. last, to receive proposals for the labor of the convicts. Proposals were made by Mr. Gordon Burley for one year, commencing on the 1st day of January, 1840, and a new contract was then entered into, (the terms of which are similar to those of the former contract) which would have expired January 1, 1841, but by a subsequent agreement, said contract is to expire in Sept. next. This alteration in the opinion of the Warden is beneficial to the State, in as much as it brings the contract to a termination, at an earlier season of the year, and will afford opportunity to procure provisions for the support of the convicts, and stock and materials to supply the work-shops before the water communication to this place is closed by ice. The Warden's report will show what

part of the appropriation for repairs has been expended for that purpose. No part of the appropriation to enable the Warden to carry on business in behalf of the State has been drawn from the Treasury ; but such, and so fluctuating have been the prices of manufactured articles in the market, that few are disposed to contract for the labor of the convicts ; perhaps those convicts who are mechanics, can be advantageously let for particular branches of business. I would therefore suggest the propriety of continuing authority, to hire out a part or all the convicts on suitable terms, and also of continuing sufficient appropriations to enable the Warden to carry on the whole business, directly in behalf of the State.

It gives me great satisfaction to be able to say, that the regulation and police of the Prison, has never to my knowledge, been better than during the past year ; the work-shops have been divided into smaller apartments, greatly as I conceive to the benefit of the contractor, and the division has contributed much to preserve order and regularity in the conduct of the convicts.

Under the act of the last session providing for a geological and mineralogical survey of this State, I have appointed Dr. Charles T. Jackson of Boston, State Geologist ; such were his engagements last year, that he could not enter upon the survey of this State until the present season. I anticipate great benefits to the State from this survey, not only in the valuable agricultural information to be derived from the analysis of our soils, but in the development of the mineral resources, which there is reason to believe abound in various parts of the State ; to continue this survey through the season may require some additional appropriation ; I presume it is the desire of all to complete the survey with as little delay as possible.

Our reliance for defence, for suppressing insurrection, and repelling invasion, must in a great measure be upon citizen soldiers, our militia. Our pursuits are of a peaceful nature, we are not by habit a warlike people ; but if occasion demand, if foreign foes invade our soil, if the integrity of our Union is assailed, "our people know their rights, and knowing will defend them ;" we have the best materials from which to raise an army, in the patriotic, warm-hearted, strong-armed citizens of our Republic, who still possess all that love of country, all that energy, courage and fortitude, with which our fathers were inspired in the struggle for Independence ; these are the bulwarks of our country, and in the absence of National Legislation upon this subject, it is important that measures should be adopted by the State Governments,

to encourage discipline, and render our Militia efficient. It is wisdom on our part to be at all times prepared for war, a different course would be likely to invite aggression. The encouragement already given by our laws, to those who bear arms, although small has proved beneficial. Heretofore the burthen of doing military duty, has fallen principally upon those, who have been least able to bear it. To your wisdom I submit the subject; it is for you to determine whether further encouragement is necessary to strengthen and invigorate this arm of our defence. The recent aspect of our foreign relations admonishes us, that it is wisdom, "in peace to prepare for war."

Our system of free schools, is well adapted to diffuse the advantages of education, among all classes of our people, the poor as well as the rich; and it is of the highest importance, under a government like ours, that these advantages be not only accessible to all, but that they be improved by all. Education is one of the main pillars of our free institutions. It is of great importance, that competent Teachers be employed in our District Schools; for it is here, that a large majority of our youth, finish their education, and here should be afforded the means of instruction in all the branches of a thorough English education. But while improvements are making in the arts and sciences, and in almost every thing else, have not our district schools, been, for some years, stationary? This subject is of such importance, that it is expressly enjoined on you by the Constitution "to cherish the interests of Literature and the Sciences."

The term of one of our Senators in Congress, will expire on the fourth day of March next, and on you will devolve the duty of making a seasonable appointment, to fill the vacancy which will then occur.

It will be necessary to make provision by law, for the return of the inventories of the several towns in the State, to enable the Legislature to make an equitable proportion act, at their next session, for the assessment of public taxes.

Nothing I believe has yet been accomplished toward the erection of buildings for the Insane Hospital. The progress of this institution, so humane in its object, has thus far been delayed, by a difference of opinion, as to a suitable place for its location. A point has been designated for that purpose, by a very respectable committee, in the extreme eastern section of the State. That point may have advantages (of which however I am not aware) sufficient to counterbalance its difficulty of access, to a large proportion of our people. The board of Visitors have performed no

duty the past year, except the filling of a vacancy in the board of Trustees, appointed in behalf of the State.

Of the appropriation for the education of indigent deaf and dumb persons, at the Asylum in Hartford Connecticut nearly the whole has been expended. The course of instruction pursued at this Institution, requires a term of four years for its completion, consequently about one fourth part of your beneficiaries, retire annually, and give place to as many new applicants.— It is to be hoped that the usual appropriation continued, will meet the wants of this unfortunate class.

Of the appropriation for the education of indigent blind persons at the Institution for the blind in Boston, \$675, have been expended. The pupils remain at this institution for a longer term of years, and their education is attended with more expense, than that of the deaf and dumb. It is believed there are but few of this class in the State.

In my communication to the Legislature, at the commencement of its last session, I expressed my conviction in favor of abolishing imprisonment for debt: my views upon that subject have not changed, and I again commend it to your favorable consideration.

In conclusion, Gentlemen, let us cherish a spirit of forbearance and harmony, and make the welfare, the prosperity and happiness of our constituents, the principal object of all our proceedings here; looking to Him who ruleth the destinies of Nations for wisdom to direct us in all our deliberations.

RULES FOR THE GOVERNMENT OF THE HOUSE.

OF THE DUTY OF THE SPEAKER.

1. The Speaker shall take the Chair precisely at the hour to which the House shall have adjourned, shall immediately call the members to order, and at the commencement of each day's session, shall cause the journal of the preceeding day to be read.

2. He shall preserve decorum and order; may speak on points of order in preference to others members, rising from his scat for that purpose, and shall decide questions of order subject to an appeal to the House by any two members. Questions shall

be distinctly put in this form, to wit: "As many as are of opinion that (as the case may be) say Aye;" and after the affirmative vote is expressed, "As many as are of a contrary opinion say No." If the Speaker doubts, or a division be called for, the House shall divide; those in the affirmative of the question shall first rise from their seats, and stand till they be counted, and afterwards those in the negative shall rise, and stand till they be counted. The Speaker shall then rise and state the decision of the House.

3 He shall rise to put a question, but may state it sitting.

4. All committees shall be appointed by the Speaker, unless otherwise directed by the House.

5. The Speaker shall designate to which of the standing committees all memorials, petitions, accounts or other matters shall be referred; unless otherwise ordered by the House.

6. The Speaker shall vote in no case, unless the House be equally divided, or unless his vote, if given to the minority, will make the division equal; and in case of such equal division, the question shall be lost.

7. All acts, addresses and joint resolutions shall be signed by the Speaker; and all writs, warrants or subpoenas issued by order of the House, shall be under his hand and seal, attested by the Clerk.

8. In case of any disturbance or disorderly conduct in the galleries, the Speaker or Chairman of the committee of the whole House, shall have the power to order the same to be cleared.

9 No person but the members and officers of the House, members of the Council, and members of the Senate, the Secretary of the State, Treasurer, and Clerks of the Senate, shall be admitted within the door of the Representatives' chamber, unless by invitation of the Speaker or of some member of the House with consent of the Speaker, except in public hearings, the parties, their counsel and witnesses.

10. The Speaker shall have power to substitute any Member to perform the duties of the chair, such substitution not to extend beyond an adjournment.

OF DECORUM AND DEBATE.

11. When any member is about to speak in debate, or deliver any matter to the House, he shall arise from his seat and respectfully address himself to Mr. Speaker.

12. If any member transgress the rules of the House, the

Speaker shall, or any other member may call him to order; in which case the member so called to order, shall immediately sit down; and the question of order shall then be distinctly stated from the chair; after which the member so called to order, may explain, and the question shall be open to debate, as in other cases, and be decided by the Speaker, whose decision shall be submitted to, unless an appeal be made to the House by a member, in which case, the only question shall be, "Is the Speaker's decision correct?" which shall be decided without debate. If the decision be in favor of the member so called to order, he may proceed; if otherwise, and the case shall require it, he shall be liable to the censure of the House.

13. In all cases, the member first rising shall speak first.—When two members rise at the same time, the Speaker shall name the person to speak.

14. No member shall speak more than twice to the same question, without leave of the House, nor more than once until every member choosing to speak shall have spoken; and if a question be lost by adjournment of the House and revived on the succeeding day, no member who shall have spoken thereon twice, on the preceding day, shall be permitted again to speak on it without leave.

15. While the Speaker is putting any question, or addressing the House, no one shall walk out of, or across the House; nor in such case, or when a member is speaking shall entertain private discourse, nor whilst a member is speaking shall pass between him and the chair, nor shall any member leave his seat while the yeas and nays are calling.

16. No member shall vote on any question in the event of which he is directly interested; or in any case where he was not present when the question was put.

17. Every member who shall be in the House, when a question is put, shall give his vote, unless the House, for special reason shall excuse him.

18. No motion shall be debated until the same shall be seconded and stated from the chair—and when a motion shall be made and seconded, it shall be reduced to writing, if desired by the speaker, or any member, delivered in at the table, and read by the Speaker, before the same shall be debated.

19. No petition shall be received by the House, unless it be presented by a member thereof, and upon motion made for that purpose, nor until the substance of said petition be concisely minuted and the name of the member and the town he represents

recorded on the back thereof; and it shall be the duty of the Speaker, whenever any motion relative to a petition is to be stated to the House, to state in the first place the substance of the petition as minuted on the back thereof.

20. After a motion is stated by the Speaker, it shall be in possession of the House, but may be withdrawn at any time before a division or amendment.

21. When a question is under debate, no motion shall be received, but, 1st—To adjourn; 2d, To lie on the table; 3d, To postpone indefinitely; 4th, To postpone to a day certain; 5th, To commit; and 6th, To amend; which several motions shall have precedence in the order in which they are arranged. Motions to adjourn, and lie on the table, shall be decided without debate.

22. When a question is postponed indefinitely, the same shall not be acted upon during the session.

23. Any member may call for the division of a question, when the sense will admit of it.

24. A motion for commitment, until it is decided, shall preclude all amendment of the main question—and all motions and reports may be committed at the pleasure of the House.

25. No new motion shall be admitted under color of amendment, as a substitute for the motion under debate.

26. No vote shall be re-considered, unless the motion for re-consideration be made by a member who voted with the majority, nor unless notice of such motion be given on the same day on which the vote passed, or on the next day between the hours of ten and twelve o'clock.

27. When the reading of a paper is called for and objected to by any member, it shall be determined by a vote of the House.

28. Any member may excuse himself from serving on any committee at the time of his appointment, if he is then a member of two other committees, who have not reported. No member shall nominate more than one person for the same committee, provided the person nominated shall be chosen—nor shall any person after having been himself appointed, nominate one for the same committee.

29. Each member shall seasonably, and punctually, attend his duty in the House; and no one shall absent himself from the service of the House, unless he have leave, or be sick and unable to attend.

Your committee have included in the foregoing list, the names of the members returned from the towns of Hooksett, Dorchester and Plainfield, although the Town Clerks of the said towns have not certified in their respective certificates the number of rateable polls which their respective lists contained on the day of their annual election, as certified by the Selectmen.

They have also included in said list the name of the members returned from Plaistow, although the certificate of the Town Clerk of said town states that the number of rateable polls, which the list contained on the day of their annual election, as certified by the Selectmen, was only one hundred and forty-nine.

They have also included in said list the name of the member returned from Chatham, although the certificate of the Town Clerk of that town does not show that Chatham is a classed town for the purpose of sending a Representative to the General Court.

They have also included in said list the name of the member returned from the town of Tuftonborough, although the check list of said town does not certify the number of voters, which the said list contained on the day of the annual election, as certified by the Selectmen.

They have also included in said list the name of the member returned from the town of Stewartstown, although the Town Clerk of that town does not state, in his certificate, in what town the meeting was holden, when said member was elected.

Your committee nevertheless are of opinion, that notwithstanding the errors above mentioned, said members are entitled to their seats in this House.

On motion—

Resolved, That the report be accepted.

On motion of Mr. Ela of Meredith—

The House resumed the consideration of the bill entitled "An act suspending for a limited time the operation of an act entitled an act prohibiting the emission and circulation of bank bills of a small denomination, passed January 13, 1837."

Mr. Parker of Fitzwilliam withdrew his amendment,

On the question,

Shall the bill be read a third time ?

The ayes and noes were called for,

Mr. Cate submitted the following preamble and resolutions :

Whereas, by the Constitution of the United States, Congress has the authority to call forth, organize, arm, and discipline the militia of the several States in the Union, and whereas a well regulated militia is the proper, sure and natural defence of a State, and whereas in and during the revolutionary war, as also in and during the last war, the militia was comparatively small in numbers to what it is at the present time, and feeble and inefficient from a want of uniformity in equipments and discipline, and whereas it is not in accordance with the genius and spirit of our free institutions to exact of our fellow citizens more military service, nor a longer time, in which such citizen shall be enrolled and be made liable to do military duty than the exigencies of the present or a proper forecast for the future shall demand, and whereas the citizen soldier, while and during the time he is enrolled, is liable and is bound by the laws of the land to uniform, equip, and hold himself in readiness for any and all emergencies, whether the same shall originate from civil feuds or foreign invasion, which requisitions burden him with an expense and loss of time, which expense and loss of time is as much for the benefit of others not made liable under the present organization as himself, and whereas it is not equitable or constitutional to oblige one citizen to prepare and qualify himself to defend and protect another without a mutuality of benefit, and whereas the disreputation under which the militia

has labored and struggled has been owing to, the large class now exempted from duty by law, and whereas such exempted class is well able to do and perform duty as those who are obliged to perform it—and whereas the said system was instituted for the mutual benefit of the whole, and not for the purpose of imposing all its burdens upon the industrious and laboring part of community, (which is practically the operation of the present organization) and whereas the time has arrived, in the opinion of this Legislature, when a new organization of the whole military system should be made, basing the same upon the principles of equal rights and equal justice, favoring one class no more than another, and whereas such an organization and such a system by enrolling all would by limiting the time now required by law, still furnish the country with a force adequate to any crisis which can occur, and thereby relieve the burdens of a large and valuable part of our community.

Therefore be it Resolved by the Senate and House of Representatives now in General Court convened, That in the opinion of this Legislature, Congress ought to immediately reorganize the militia system by limiting the time for the performance of military duty to the age of eighteen and forty, requiring no personal service for the last five years, and exempt no free white male citizen from said duty, but oblige all between said named ages to render personal military service or pay an equivalent, saving and exempting those who have been regularly discharged by commission, and those exempted by the constitutions of the several States.

And be it further resolved, That the Senators from this State and the Representatives in the Congress of the United States be requested to use all proper exertions to effect the objects expressed in the foregoing preamble and resolution.

And be it further resolved, That the Secretary of State be required to transmit a certified copy of the foregoing preamble and resolutions to each of our members in the Congress of the United States from this State.

Which was read.

On motion of Mr. Cate—

Resolved, That the further consideration of the same be postponed to the adjourned session of the Legislature.

Mr. St. Clair submitted the following joint resolution :

Resolved by the Senate and House of Representatives in General Court convened, That the Treasurer of this State is hereby authorized to pay John T. Blake, the sum of forty-five dollars of any money in the Treasury not otherwise appropriated.

Which was read a first and second time.

And on the question being put,

It was decided in the affirmative.

Resolved, That it pass.

On motion of Mr. Knapp—

Resolved, That the thanks of this House be presented to those Rev. gentlemen who have officiated as Chaplains during the present session.

REPORT

OF THE BANK COMMISSIONERS,

IN RELATION TO

THE CONCORD BANK.

*To the Hon. Senate,
and House of Representatives,*

On the 18th day of May last, I directed the Hon. James Clark and Jotham Lawrence, Esq., two of the Bank Commissioners of this State, to proceed forthwith and make full investigation of the affairs of the Concord Bank, and if they deemed the same unsafe, or hazardous to the public interest, to adopt such measures in relation thereto, as is by law required.

I herewith inclose their joint report and accompanying papers.
JOHN PAGE.

Executive Department, June 6, 1840.

To His Excellency John Page Governor of the State of New Hampshire.

In obedience to the directions of your Excellency, requiring the undersigned Bank Commissioners of said State to proceed forthwith to make an examination into the affairs of the Concord Bank in said State, and report the condition of the same, especially as it regards their available funds, and all their liabilities and the actual condition of said Bank, and if upon an investigation of the affairs of said Bank, you deem the same unsafe or hazardous to the public interest, you will proceed to adopt such legal measures as are required in the premises by the laws of this State. The undersigned Bank Commissioners submit the following report, that the same may by your Excellency be transmitted to the Legislature of this State.

On the 25th day of May, A. D. 1840, we met at the Banking House of said Concord Bank, and proceeded to an examination of

the books and the available funds and liabilities of said Bank, the officers of said Bank affording us every facility to aid in the investigation.

On an examination of the records of the stockholders, and a copy of their acts of incorporation it appears, that the act to incorporate sundry persons by the name of the President, Directors and Company of the Concord Bank, with a capital to consist of a sum not less than fifty nor more than two hundred thousand dollars, was passed and approved on the 18th day of June, A. D. 1806, for the term of twenty years, that the stockholders organized on the 1st day of October of the same year, and divided their capital stock into one thousand shares; and on the 30th day of the same month chose the first board of Directors, and voted an assessment of fifty dollars on each share, and on the 5th day of September, A. D. 1808, a further assessment of ten dollars on each share, making a capital of sixty thousand dollars.

By this charter the stockholders in their private capacities were jointly and severally liable to the holder of any bill or bills issued by said corporation for the payment thereof.

On the 22d day of December, A. D. 1824, this charter was extended for the term of twenty years from and after the first day of July, A. D. 1826, and by this extension the capital stock was increased to the sum of not less than one hundred thousand nor more than two hundred thousand dollars, and the section in the original charter making the stockholders liable in their private capacities was repealed. The act granting an extension of their charter was accepted on the 5th day of September, A. D. 1825. On the third day of July, 1826, an assessment of twenty dollars on each share was made to increase their capital stock, and on the 7th day of September, 1827, a further assessment of twenty dollars for the same purpose, thereby increasing the capital stock to one hundred thousand dollars, which appears to have been all paid in.

At a meeting of the stockholders duly notified and held on the 4th day of August, A. D. 1837, the Corporation voted to accept the act relating to Banks and Banking.

There does not appear on their records, that there has been any investigation or examination of the standing and condition of said Bank or the funds and liabilities thereof from the 2d day of March, A. D. 1812, to the present time.

The Commissioners have also examined the Directors discount book, being a record of the proceedings of the board of Directors and discounts made, and other doings of said board, and no set-

tlement with the Cashier appears on that or any other book exhibited to us, to have been made with him.

They also have evidence, that a verbal order was made by the Directors and communicated to the Cashier in the early part of the year 1839, to make out a full and complete statement of all the notes and other securities due to the Bank.

This statement was made out under the date of May 21st, 1839, and laid before the Directors at the next regular meeting, and contains the only list of debts due the Bank laid before the Directors of this corporation.

It appears from the testimony of the Directors, under oath, that this statement gave them the first information of the existence of large debts due the Bank to the amount of more than one hundred and thirty-one thousand dollars, and mostly from four liabilities. One of the Directors stated that he knew the Cashier kept a Ledger account with him in which he was charged with money received from the Bank from time to time, for which he gave no note at the time, but did not know of the above liabilities of others until the exhibition of the above statement.

The other Directors stated that this list of claims due the Bank gave them the first information of these large liabilities, or that the Cashier paid out money without taking the proper security.

As soon as these transactions came to the knowledge of the Directors they took measures to secure as far as possible these debts by mortgages and otherwise, and ordered collections on other notes to be paid, and made an order to that effect, and it was entered on their books.

It appears further on the Directors' book of May 8th, 1840, that certain enumerated securities to the amount of \$50,374 09, were placed in the hands of General Joseph Low to indemnify him, Joshua Darling and Samuel Fletcher against a bond signed by them to the Suffolk Bank, Boston, for the redemption of Concord Bank bills to the amount of \$30,000, and for the payment of a debt due to the Mechanicks Bank in Concord. And it further appears that Joshua Darling was authorized by the board of Directors to endorse over said notes and securities to said Joseph Low. It was voted further that no stockholder should be permitted to take out any money at present on his own note.

The records of the Directors further shew, that at a special meeting holden at Hopkinton, May 12th, 1840, certain other securities to the amount of \$52,752 62, all bearing interest, were assigned and delivered over to said Joseph Low, agent of said

stockholders, to indemnify them for signing a bond to the Suffolk Bank for redeeming and receiving \$50,000 of the bills of the Concord Bank.

At a special meeting of the Directors on the 14th day of May, 1840, a preamble and resolution stating that a meeting of certain stockholders had been held and an examination into the securities had been made, and an attempt to obtain payment, which induced them to suppose that many of the securities which had been supposed available were doubtful, General Joseph Low was authorized to go to Boston, and make such arrangements as he, with Mr. Darling may deem proper.

This negotiation with the Suffolk Bank resulted in their refusing further to receive the bills of Concord Bank from and after the 16th day of May last. And on the 18th day of said May, the Concord Bank refused to redeem their own bills in specie at their own counter.

At a meeting of the Directors, May 18th, 1840, voted to cancel the assignment of notes made on the 8th and 12th day of May, 1840, to General Joseph Low, and a schedule of notes, &c., amounting to the sum of \$81,054 50, were assigned and delivered to Joseph Low, to indemnify certain stockholders who signed a bond to Suffolk Bank, May 12th, 1840, and as security for a bond to Mechanics Bank, on the 23d day of May 1840; and also voted that the bills of this Bank now on hand be burned, and that no new bills be issued until ordered by the stockholders.

It was also voted not to pay out any foreign bills on deposits. Copies of all the preceeding votes of the Directors, together with the first charter and by-laws, and its extension, accompany this report.

It further appears by the testimony of the Cashier that there is generally an amount from four to six thousand dollars in what is termed exchange notes, they being given for Concord Bank bills put into the hands of agents without interest, to be exchanged or put into circulation for bills of other banks.

It further appears that there is due to the Bank \$8,503 50, discounted on the pledge of stock.

The amount of bills of the Concord Bank signed for circulation, after deducting the amount destroyed by order of the Directors, and also the sum of \$10,623 75 which have been estimated as lost or destroyed, as appears by the books of the Bank, amount

Joseph Low was appointed agent of said Concord Bank, to receive the securities for debts due to said Concord Bank, and to collect and take further security for the same.

And whereas, since that time an examination of the means, and an attempt to obtain payment or security of some of the principal debtors of the Bank have resulted in disclosures which induce the said agent and the Directors present to believe that some of the securities of the Bank, hitherto supposed to be safe and available are doubtful, and that the funds of the Bank may not be sufficient to indemnify the signers of said bond and to meet the other liabilities of the Bank.

And whereas, the Hon. Joshua Darling, the President of this Board, is now absent in Boston, therefore,

At a special meeting of the Directors, holden at the Bank, on the twenty-third day of May, 1840.

Present, Joshua Darling, Stephen Ambrose and John Cogswell.

Whereas, at a meeting of certain stockholders of the Concord Bank, holden at the Bank, on the 22d day of May instant, certain resolutions were passed of the import following, to wit:

1st. That the three thousand dollars deposited by Gen. Low, in the Suffolk Bank, be applied to pay the balance due from the Concord Bank to the Suffolk Bank.

2d. That debts due to the Bank on what are called stock notes, or debts due on pledge of stock, be paid in specie or bills received by the Suffolk Bank, and that Concord Bank bills be received for all other debts, including those which are pledged.

3d. That the signers of the bond to the Suffolk Bank be kept at all times secured and fully indemnified by securities or property of the bank, in, or to be put in their hands, which may be done by changing securities from time to time, and that the same be

done in regard to the securities for the benefit of the Mechanicks Bank, for what is now due to that bank.

4th. That the securities now in the hands of Joseph Low, shall be delivered over to, and be held by trustees appointed by the sureties upon the bond to the Suffolk Bank, for the benefit of said sureties, and also those securities which are pledged for the benefit of the Mechanicks Bank.

6th. That the current money that may come into the Bank be applied equally to discharge the debts due to the Suffolk Bank and Mechanicks Bank, in proportion to the amount of those debts, until they are discharged.

7th. That the Cashier be directed by the Directors to call a meeting of the stockholders, to be held on the 15th day of June next.

Now therefore,

Voted, That the three thousand dollars deposited by Gen. Joseph Low, in the Suffolk Bank, be applied to the balance due from the Concord Bank to said Suffolk Bank.

Voted, That debts due to this Bank on stock notes, that is to say, debts due on pledge of stock, be paid in specie, or in bills current at the Suffolk Bank, and that the bills of this Bank be received for all other debts, including those which are pledged as follows.

Voted, That the signers of the bond to the Suffolk Bank be kept at all times secured by notes, or other property of the Concord Bank, now in, or to be placed in their hands, which may be done by changing securities from time to time, and that the same be done with the securities for indemnifying the Mechanicks Bank for the balance due said Bank, being about \$9,316.

Voted, That the securities now in the hands of Joseph Low be delivered to Trustees appointed by the sureties on the bond to the Suffolk Bank, to indemnify said sureties, and that the same be done with the securities for the indemnity of the Mechanicks Bank.

It will be seen by the foregoing statement there is a considerable amount due this Institution from individuals, that it may be more distinctly understood—the following in explanation is presented. There is due on the old contract of Burley & Richardson on account, \$3,088 25, on or about the 25th of January 1840, I handed the bondsmen to that contract, a transcript of the whole transactions and demanded payment thereof—with the exception however of \$40 03, which has since been added thereto, being Interest on the balance then claimed up to April 30th, 1840. A portion is also in the hands of the Sheriff. At our Court of common Pleas holden at Concord, in and for the County of Merrimack, on the 3d Tuesday of March 1839, we obtained Execution in favor of the State, against the said Burley on a Note the original amount of which was \$2400 00, dated July 12th, 1837, and that part of the account which was then due being \$1779 67. Execution obtained including costs is \$4534 99, the Note above alluded to is the same as brought to view in this statement under the head of Note receivable account, signed Gordon Burley, taken by the Executive about the time of my entering upon the duties of my present term of office as Warden. On the fourth day of May 1839, property attached was sold by the Deputy Sheriff and four months time given for payment of the purchases thereof, and although the said Deputy Sheriff had often been requested to pay, yet he neglected so to do with the exception of \$500 00, which was paid on the 5th day of October last, and carried to the credit of the said Burley & Richardson on account. At the last term of our Court of common Pleas, holden at Concord, in and for the County of Merrimack, on the 3d Tuesday of March 1840. A suit against the Sheriff of said County was instituted in the premises, and as I understand, the defendant obtained a continuance. I would further remark that the above mentioned Note for \$2400 00, was partially secured by Mortgage of property in the Prison yard and which has been since and still is in use for the said Burley, con-

sequently becoming less in value. Another portion of the debts, as in the foregoing statement is due from Gordon Burley which has accrued since January 1st 1840, at which time his new contract commenced with new bonds, which amounts to \$4772 28, a part of which sum is for articles appraised to him, and is to be returned again in kind, at the expiration of this last contract, amounting as per Inventory, to the sum of \$2608 54, leaving a balance of debt from that concern of \$2163 74 due. A transcript of the account has been presented to him and also to his principal Bondsmen and payment demanded. It will also be seen that the Note Receivable account has been somewhat diminished since the last annual Report while the amount of accounts in the same time have proportionably increased the most of which is in consequence of transferring the sum of \$2608 54 from that of Note receivable to Gordon Burley on account as Contractor and a further sum of \$113 75 from the same will now be found under the head of Inventory, the two put together make the amount as it appeared in the last Report as Notes being \$2,722 29 and which was in fact an appraisal of property but carried in to the Note receivable account by the late Warden.

At the June session 1839, a resolution was passed and approved making an appropriation of \$1000, for the purpose of repairing the Warden's House, old Prison, work shops, and the walk &c. upon the top of the wall around the yard of the Prison, of which sum there has been drawn from the Treasury by orders from his Excellency the Governor, \$465 19, and expended in repairing the top of the Dwelling House, old Prison, and the long Shop, in the yard, in consequence of the uncommon difficulty in getting into the woods for timber by reason of the deep snows an extra price was demanded therefor—the Executive board advised to defer for another season the necessary repairs on the top of the wall and there remains the sum of \$534 81 of that appropriation undrawn and which will be necessary to accomplish the object for which it was originally appropriated.

The Honorable Legislature at their last session passed a Resolution authorising the Governor to draw on the Treasurer for the sum of \$5000 in such sums and at such times as he might think necessary to enable the Warden to conduct the affairs of the Prison after the then existing contract should expire. In consequence of the extending for one year from and after the first day of January 1840, to Gordon Burley a contract on the same principles of the former one, no part of that appropriation has been drawn.

We have for the most part of the year which has now just closed enjoyed among the inmates an unusual degree of health, and notwithstanding we have had many evils to encounter by reason of the peculiar situation and circumstances, in which we have been placed, yet through the interposition, of a kind Providence, we have been saved from any considerable outbreakings of a serious nature, from those who have while abroad in the world depridated upon the persons, and property, of out citizens, and are by the laws of the State placed here in durance. On the first day of December last however we commenced under circumstances more in accordance with my views of government and the results thus far I think more satisfactory to the contractor, and all concerned, and the dicipline in a great measure restored. Although I think this method of contracting which has been here pursued has in its tendency a baneful influence, and will take time to eradicate all the evils resulting from it, and in my humble opinion the sooner an end is put to it the better. I can see no good reason without some unforeseen occurrence should take place, beyond the control of man, why the State should suffer pecuniary loss, by conducting the affairs of the Institution, for and in behalf of the State, (whose legitimate child it is) but if this should be the case, there is a higher and more noble object in view of every good citizen, namely the reformation of these offenders and sure I am, the system we here condemn cuts of all hopes by throwing obstacles in the way of using the appointed means, however perhaps I have already said enough and if I have said too much the good of the Institution has prompted me to be thus free, it is therefore hoped it may be excused. In concluding my remarks to the Honorable Legislature now convened by whom (as the law now is) some one is to be elected to pre-side over the more immediate concerns of this Institution, I beg leave to say for myself I wish not to be a candidate.

All of which is most respectively submitted.

MOSES C. PILSBURY, Warden.

REPORT

OF THE COMMITTEE ON ELECTIONS.

The committee on Elections, to whom were referred the certificates of members returned to serve in this House, have had the certificate of the election of Thomas Smith, a member returned from the town of Carroll in the county of Coos, under consideration, and find the following to be a statement of facts :

It was in evidence before the committee that, by a resolve of the Legislature, passed July 1, 1831, the town of Dalton, and a place then called Bretton Woods were classed for the purpose of electing a representative, and the inhabitants thereof were authorized to elect and send a representative to the General Court until the Legislature should otherwise order—that by an act of the Legislature passed June 22, A. D. 1832, all that tract of land known by the name of Bretton Woods, was incorporated by the name of Carroll—that said Dalton and Bretton Woods (now Carroll) have, ever since they were classed in 1831, been represented in the General Court by a representative chosen by the inhabitants of both places, until this present session—that on the second Tuesday of March, 1840, the inhabitants of said town of Dalton, amounting to the number of one hundred and fifty-four rateable polls, at a meeting duly holden for that purpose, elected and duly returned a representative to represent them in this House, and who now has a seat therein—that prior to said second Tuesday of March 1840, the town of Dalton notified the town of Carroll that they had the constitutional number of rateable polls to entitle them to a representative in the General Court, and that they, themselves, should, at the then next election, proceed to elect a representative.

It was further in evidence before your committee, that on the said second Tuesday of March, 1840, the inhabitants of said town of Carroll, amounting to the number of forty-nine rateable polls, at a meeting duly holden for that purpose, elected Thomas Smith as a member of this House, and returned him to represent them therein.

Upon the foregoing facts, the committee have directed me to report the following resolution :

IRA ST. CLAIR,
for the committee.

Resolved, That Thomas Smith, of Carroll, is entitled to a seat in this House, as a member thereof.

REPORT

OF COMMITTEE ON ROADS, BRIDGES AND CANALS,
IN RELATION TO THE BOSTON AND
MAINE RAIL ROAD.

The committee on Roads, Bridges and Canals, to which was
referred the annual report of the directors of the Boston and

Maine Rail Road for 1840, having examined the same, report that said report is signed by Hobart Clark, Geo. W. Kittredge, Geo. W. Gordon, Chas. S. Storow and Francis Cogswell as Directors of said Rail Road, and by them sworn to be true to the best of their knowledge and belief. The report contains the following statement : "The owners of land over which the road has been constructed, are in general, friendly to the undertaking. Their damages have been settled, with a few exceptions, on reasonable terms." The committee were satisfied, from evidence laid before them, that the above statement of the Directors will only apply to nine miles of the road. With regard to the remaining four and one half miles, the committee are satisfied by petitions from citizens of the towns through which the road passes, and from other evidence before them, that the above statement, that "the owners of land over which the road has been constructed" "have been settled" with, "with a few exceptions" for the damages sustained by them, is not true; and the committee regret to say, that this portion of the report, it is believed, was intended to deceive the Legislature.

The committee have directed me to report the following resolution :

T. P. TREADWELL,

for the committee.

Resolved, That the report of the Directors of the Boston and Maine Rail Road be placed on file in the office of the Secretary of State.
